

TABEL UJI FUNGSIONALITAS

“Implementasi Sistem Otomasi Respon Insiden Web Defacement dan Denial of Service (Studi Kasus: Badan Pangan CSIRT)”

Test ID	Test Case (Skenario Uji)	Hasil yang Diharapkan	Status (S/TS)	Bukti Tangkapan Layar
UF.01	Melakukan simulasi insiden <i>web defacement</i> dan upaya penyerangan ke Agent	Sistem berhasil mengambil <i>alert</i> insiden <i>web defacement</i> dari Wazuh sebagai <i>workflow trigger</i>	S	 The screenshot displays the Wazuh dashboard interface. At the top, it shows a search bar with 'DQL' and a date range filter set to 'Jul 4, 2025 @ 22:00:00.000 → now'. Below this, a bar chart indicates '33,098 hits' for the selected time period. The chart shows a significant spike in activity around July 4, 2025. Below the chart, a table lists several detected incidents. The first two entries are 'Web Defacement Attack Detected' for the file '/var/www/html/makaryo/index.html' on '172.20.10.114' (LAB_Ubuntu) at 'Aug 10, 2025 @ 10:22:11.895' and 'Aug 10, 2025 @ 10:22:11.887'. The subsequent two entries show 'A web attack returned code 200 (success)' for the same IP and date. The table also includes details such as 'Old md5sum', 'New md5sum', and 'Old sha1sum' for the affected files.

UF.04		Sistem berhasil mendapatkan informasi IoC dari Virustotal secara otomatis	S	 The screenshot displays a 'Filehash Analysis' interface with a dark theme. At the top, there is a blue icon and the title 'Filehash Analysis' followed by the endpoint 'get_a_hash_report_'. Below this, a JSON response is shown with collapsible sections indicated by minus signs. The JSON structure is as follows: <pre> { "Results for Filehash_Analysis": { "status": 200, "body": { "data": { "id": "ff9eb9db7fdd47778365de2daea05a", "type": "file", "links": { "self": "https://www.virustotal.com/" } } } } } </pre> Each level of the JSON object is preceded by a minus sign icon and a count of items (e.g., '6 items', '1 item', '4 items'). A Virustotal logo is visible in the bottom right corner of the interface.
